

Annika Klüpfel

Full-Stack Software Developer

AnnikaKluepfel@web.de ·  GitHub ·  Xing

Profile

Full-stack software developer with a strong focus on data. After studying anthropology and working in public administration, I retrained as a developer in 2020. Since then I have built web applications with Vue and React, written SQL for APIs and reporting, and developed data pipelines and tooling in a data warehouse team. I am most at home beneath the surface – databases, APIs and automation – while an eye for design helps me on the frontend.

Work Experience

Hamburg, Germany

07/2026 – today

Klett Online-Weiterbildung GmbH & Co. KG

formerly ILS Institut für Lernsysteme GmbH

Full-Stack Software Developer

- Developing a web application in React, Next.js and TypeScript
- Writing a CLI wrapper for a configuration server in Go
- Running a legacy Java application locally in Docker for development

04/2025 – 06/2026

Data Warehouse & BI Engineer

- Building and monitoring data pipelines
- Tooling for pipeline operations, e.g. alerts for failed pipeline runs posted to a Microsoft Teams channel
- Writing a CLI in a repo holding SQL that helps deploy changes to different databases

10/2023 – 03/2025

SQL Developer

- Writing SQL for API endpoints, for ad-hoc data requests from departments (e.g. upcoming seminars in a given period) and as data sources for documents generated on demand from the CRM
- Developing a small web app for services the CRM does not provide, with Microsoft Entra ID sign-in (MSAL.js) and a GitHub Actions workflow deploying it to internal servers via self-hosted runners

Bremen, Germany (remote)

03/2021 – 08/2023

Whic UG

Full-Stack Software Developer

Main tasks

- Building the spirits platform *Distilando* in Vue (Nuxt for SEO)
- Backend of multiple Express apps querying SQL databases
- Cloud deployments in a Docker-based environment

Other tasks as required

- Developing a product matching algorithm (JavaScript)
- Various scripts to use third-party APIs or scrape data (JavaScript)
- Developing an application that accepts file uploads with product data, posts them to a third-party API for text generation and receives the results on a webhook endpoint (Python)

Hamburg, Germany

12/2015 – 02/2022

Fördern und wohnen AöR

Administration in Refugee Accommodations

- Managing room occupancies, data maintenance
- Intermittent management of an accommodation with a team of more than 20 people as its deputy head

Hamburg, Germany

08/2015 – 11/2015

Breeze Technologies UG

formerly Robert Heinecke, Sascha Kuntze und Jan Rübhelke GbR

Intern in PR and Design

- Design, research and copywriting for marketing materials
- Writing a magazine article for *t3n* (journal on digital economy)

Education

Hamburg, Germany

07/2020 – 12/2020

Hamburg Coding School

Full-Stack Web Development Graduate

Final project: travel blog in React with a Node.js backend fetching geographic data from a REST API

Final grade: 14 out of 15

Hamburg, Germany

10/2009 – 07/2015

University of Hamburg

B.A. & M.A. Social/Cultural Anthropology

Research topics: philosophy of science, ethnicity, nationalism

Final grade M.A.: 1.3 (94%)

Marktheidenfeld, Germany

07/2008

Balthasar-Neumann-Gymnasium

High School Diploma (Abitur)

Main subjects: English, art, mathematics, religion

Final grade: 1.4 (92%)

Voluntary Experience

Hamburg, Germany

04/2011 – 07/2015

AIESEC

International student-run organisation, Local Committee Hamburg

PR and Design

- Partner company account management, mostly reviewing applications for internships
- Creating marketing materials and copy, especially for the internship abroad programme

until 03/2014
